

PROFESSIONAL SUMMARY

Web developer and entrepreneur with 3+ years of experience building secure, business-focused digital solutions — from custom WordPress and e-commerce platforms to booking systems and ERP concepts — using PHP, JavaScript, and modern web technologies. Combines hands-on software development with an engineering discipline from ongoing Mechanical Engineering study, and applies a security-first approach to every project. Currently completing structured industrial training (SIWES) in vehicle engineering alongside continued software delivery. Recognised with multiple Entrepreneur of the Year awards and a Social Humanitarian Award for technology-driven community impact.

WORK EXPERIENCE

Web Developer — Freelance & Personal Projects

2023 – Present (3+ Years)

Self-Employed

- Designed and developed custom WordPress and PHP-based websites for clients and personal projects, including business websites, corporate platforms, e-commerce stores, booking systems, membership platforms, and ERP concepts.
- Integrated payment gateways and third-party APIs to extend site functionality for real business use cases.
- Applied security-first development practices — input validation, secure authentication, and protection against common web vulnerabilities — across all builds.
- Delivered projects including the OnuTera Booking Platform, GKTV Media Platform, NMA Hair & Beauty e-commerce store, and a Crypto Investment Platform dashboard.
- Managed version control and deployment workflows using Git, GitHub, and Vercel.

Web Developer — Project Contribution (SafeWeb)

2025 – 2026

SafeWeb — Lithuania, EU (Remote Collaboration)

- Contributed front-end implementation for the corporate website of SafeWeb, a Lithuania-based IT and cybersecurity company.
- Applied a security-conscious development approach — careful data handling, secure forms, and a hardened, performance-minded build — for an EU-based cybersecurity client.

Industrial Trainee (SIWES) — Vehicle Engineering

May 2026 – Present

Kewalram Chanrai Group — Lagos, Nigeria

- Undertaking supervised industrial training across passenger, commercial, light-duty, and heavy-duty vehicle engineering under experienced engineers.
- Performed computerised wheel alignment and balancing, and assisted with mechanical and electronic diagnostics using professional equipment.
- Currently training within the vehicle assembly plant — production workflow, quality control, manufacturing standards, and industrial safety.

SELECTED PROJECTS

OnuTera Booking Platform

Multi-service booking platform — hotels, apartments, car rentals, airport transfers

- Secure, mobile-first booking architecture with an integrated payment system and property management portal.

GKTV Media Platform

Campus media & community platform

- Trusted news, student engagement, verified vendor directory, and humanitarian fundraising integration.

NMA Hair & Beauty

Multi-currency WooCommerce e-commerce store

- Secure checkout, elegant product presentation, and international (GBP/USD) shopping experience.

Enterprise ERP Platform (Ongoing)

Modular ERP — HR, payroll, procurement, inventory, CRM

- Role-based access control, workflow automation, and real-time dashboards; built with future mobile support in mind.

PROFESSIONAL TRAINING

Full-Stack Web Development & AI-Assisted Software Development

Jan 2026 – Jun 2026 (6 Months)

Artificial Intelligence Technology Ltd. — Wuse, Abuja, Nigeria

- Structured training in HTML5, CSS3, Tailwind CSS, JavaScript, PHP, and Django, with applied projects covering modern development workflows and AI-assisted tooling.

EDUCATION

B.Eng. Mechanical Engineering — Federal University of Technology, Minna (FUTMINNA)

2023 – 2027 (Expected)

Minna, Niger State, Nigeria

- Currently in 400 Level of a 5-year B.Eng. programme.

Senior Secondary School Certificate

Saint Kizito Minor Seminary — Idah, Kogi State, Nigeria

- Excelled in Computer Science at both Junior and Senior Secondary level; graduated as the best graduating student in Computer Science overall.

AWARDS & RECOGNITION

- Social Humanitarian Award** — for the development of GKTV, a digital platform supporting student communication, information sharing, and community engagement.
- Entrepreneur of the Year** — Nigerian Universities Engineering Students' Association (NUESA), 2024/2025 Session.
- Entrepreneur of the Year** — Nigerian Institution of Mechanical Engineers Students' Affiliate (NIMechE), 2024/2025 Session.
- Best Graduating Student, Computer Science** — Saint Kizito Minor Seminary, Idah.

TECHNICAL SKILLS

Languages & Frameworks	PHP, JavaScript, HTML5, CSS3, TypeScript (Learning), Python (Basic), Django (Basic)
CMS & E-commerce	WordPress, WooCommerce, Elementor
Modern Web	Next.js, Tailwind CSS, React & React Native (Learning)
Tools & Platforms	Git, GitHub, Vercel, MySQL
Security Practices	Secure coding, input validation & sanitisation, authentication & role-based access control, API security fundamentals

ADDITIONAL INFORMATION

Soft Skills	Leadership, entrepreneurship, problem-solving, communication, teamwork, adaptability, hands-on practical mindset
Languages	English (Fluent), Igala (Fluent)
Interests	Hands-on practical work, meaningful conversation, walking, and exploring during free time
